

# TSBS

## Temperature Sensor for Batteries

Specifically designed to measure internal battery temperature in Battery Management System Application.

Provided with a Deutsch 2 contact connector. On request, the TSBS can be provided with another type of connector.

No power required. Resistive output.

### HIGHLIGHTS

- Easy to install
- Robust design
- Resists to battery acid
- -40 to 70°C Temperature range

### OVERALL DIMENSIONS

Length 3" x Height 3" x Depth 1,55"  
(excluding pigtail)

### MODELS & FEATURES

<b>Part Number</b>	<b>TSBS1</b>
<b>Maximum Working Voltage</b>	50V
<b>Compatible with all Transtech REG24C/H/D series</b>	X

X = Included, - = not included
