

DMB

Diode Matrix Board

The Diode Matrix Board is a parallel interface board allowing a supervision system to monitor an array of breakers.

DMB1 shown

HIGHLIGHTS

- Low cost solution
- Reduce harnessing and labor costs
- Compact

SERVICE PROVEN

DMB1 | Bombardier | Subway | BART
San Francisco Bay Area, CA, USA

MODELS & FEATURES

Part Number Base	DMB1	DMB2
Operating Voltage	37.5V _{DC}	72V _{DC}
Number of contacts supervised	53	56
Number of Inputs	5	5
Number of Outputs	12	12
Length X Height X Depth 12.72" X 0.77" X 2.75"	X	X

X = Included, O = Optional, F = Factory selectable
